Philosophical education triumphs over the challenges of AI technology!

- <u>Speculative ability</u> leads to breaking through thought frameworks, further deepening the possibilities of technical creation.
- <u>Logical ability</u> leads to focused thinking, quickly getting to the point in work and life, finding corresponding answers.
- <u>Humanistic care ability</u> prevents people from being replaced by AI and machines; instead, it makes the latter serve the values and life of humanity.

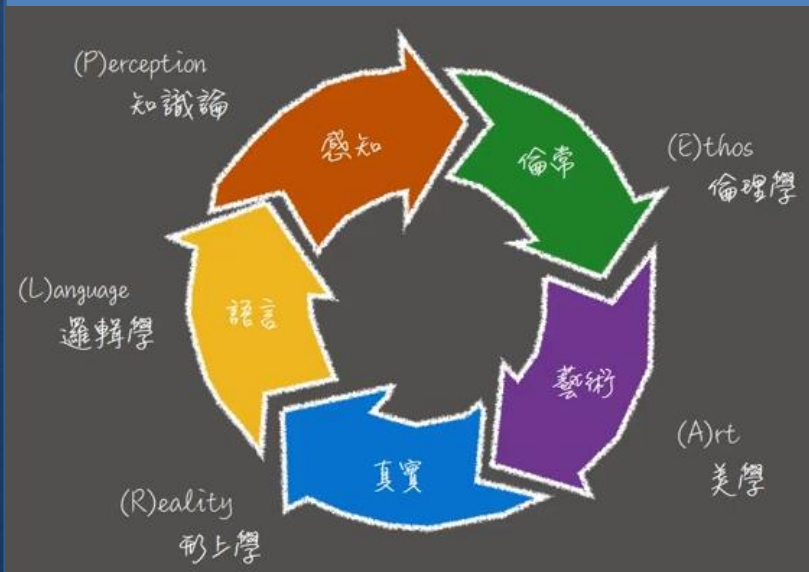

(P)erception 知識論 感知
(E)thos 倫理學 倫常
(L)anguage 邏輯學 語言
(R)eality 形上學 真實
(A)rt 美學 藝術

<u>Compulsory courses encompass five major domains—</u>

<u>PEARL</u>

- PEARL is an abbreviation for Perception, Ethos, Art, Reality, Language, representing epistemology, ethics, aesthetics, metaphysics, and logic.
- It signifies the core capabilities that the department aims to impart to students, just like the preciousness of pearls.
