Curriculum Design

What You Can Learn from

We offer a wide range of undergraduate and graduate programs designed to help the students to navigate the complexities of the global economy.

Through our courses, students can understand how the economy and market work and learn how to analyze real-world issues such as consumer behavior, production activities, corporate strategy, inflation, finance and capital market, and economic policies.

A Wide Range of Scholarships to Support Students Financially

The PCCU is committed to fostering academic excellence and accessibility, Hence, we provide a diverse range of scholarships designed to ensure talented students to have the opportunity to pursue their academic goals without financial barriers.

Promising Career Prospects

Through a systematic approach to education and practical opportunities, our graduates could enjoy diverse and promising career options.

Particularly in the financial sector, there are abundant opportunities, spanning areas such as investment banking, wealth management, risk management, and various other industries.

The comprehensive education and practical experience provided by the program prepare graduates with a strong foundation, making them highly competitive in the job market.
