

● Department of Counseling Psychology – Key Features

- Among psychology and counseling programs nationwide, 9 out of 10 full-time faculty members (90%) hold national counseling psychologist licenses, making us the top-ranked program in the country.
- Practical-Oriented Teaching Approach: Beyond foundational theory, our curriculum emphasizes practical, real-world applications. Graduates are equipped to immediately apply their counseling psychology knowledge and skills in professional settings.
- Diverse Application Fields: Our counseling psychology expertise extends across various domains, including schools, communities, healthcare, judicial systems, and corporate sectors.
- Skill-Based Practicum: All senior-year students participate in a 100% full-year internship before graduation. Internship placements include schools, communities, foundations, businesses, and judicial institutions, ensuring students can effectively bridge academic learning with workplace practice.
- State-of-the-Art Facilities: Our department offers modern, fully equipped professional classrooms and resources, such as individual and group counseling rooms, psychological testing labs, biofeedback devices, specialized classrooms for social-emotional learning, and materials for art and play therapy.

● Future development

- After earning a bachelor' s degree, students can pursue a master' s in counseling or psychology. Upon graduation and obtaining a counseling psychologist license, graduates may open a private practice or work as counseling psychologists in schools, communities, judicial institutions, hospitals, and social welfare organizations.
- Full-Time School Counselor: By completing the education program at our university and obtaining a teaching certification, graduates can become full-time counselors in middle and high schools.
- Other Career Opportunities:
- Psychological Assessor
 - Human Resources Specialist in corporate organizations
 - Psychological Testing Specialist
 - Employee Health Manager
 - Career Counselor
 - Social Welfare Organization Counselor
 - Mental Health Workers at municipal mental health centers
