

● Department features

- **Focus on Counseling Psychology:** Our department takes pride in the fact that 78% of our full-time faculty members are licensed counseling psychologists—7 individuals in total—showcasing our strong commitment to expertise in the field.
- **Practical-Oriented Teaching Approach:** Going beyond theoretical teachings, our curriculum places a significant emphasis on practical instruction. This approach ensures that our graduates possess the necessary skills and knowledge in counseling psychology to be immediately effective in their professional endeavors.
- **Diverse Application Fields:** The counseling psychology program within our department covers a broad spectrum of applied settings. This includes but is not limited to schools, communities, healthcare facilities, legal environments, and various business sectors.
- **Hands-On Skill Development:** Our seniors engage in a comprehensive 100% practicum during their final year. This involves year-long internships across diverse settings such as schools, communities, foundations, corporations, and legal institutions. Through this experiential learning, students acquire the ability to seamlessly apply their knowledge in real-world scenarios.
- **State-of-the-Art Facilities:** The department prides itself on providing cutting-edge and modern facilities conducive to the study and practice of counseling psychology. These facilities encompass individual counseling rooms, group counseling spaces, psychological assessment labs, as well as resources for innovative therapeutic interventions like drama therapy, art therapy, and game-based interventions..

● Future development

- **Postgraduate Counseling or Psychology Master's Program:** Upon graduating from university, pursuing a master's degree in counseling or psychology allows individuals to obtain licensure as counseling psychologists. This licensure enables them to establish their own practice or work as counselors in schools, communities, judicial institutions, hospitals, and social welfare organizations.
- **Secondary School Guidance Counselor:** Upon completing our school's education program and acquiring teaching certification, individuals can serve as full-time guidance counselors in secondary schools.
- **The job opportunities available after graduating from our department include roles such as:**
 - Psychological Assessor
 - Employee Health Manager
 - Employment Counselor
 - Counselor in Social Welfare Organizations
